WILKESBARRE, PA., June 28 .- (Special.)-Richmond won a close game to-day from the Barons before a big crowd, Patton was in fine form, and should have won his game. On four different occasions a single hit would have given Wilkesbarre two scores, but the league leaders were invincible when near the danger line. Wrigley and Coughlin were sensational in their fielding and throwing, while Scybold made some wonderful catches in left. Arthur Irwin, of Washington, and Alderman Franklin, of Buffalo, witnessed the game. They are after Wilkesbarre players. The score was as follows:

THE GRAVESEND RACES.

Filon d'Or Wins the Tidal Stakes McClelland Kills Himself.

NEW YORK, June 28.-The racing at Sheepshead Bay to-day was spiritiess. In the only stake event on the card—the Tidal, for 3-year-olds-Lothario was the favorite, although Half Time and Filon d'Or were heavily backed as well. The start was prompt and good, and Filon d'Or and Half Time went out to make the running. They set a hot pace to the stretch, where Half Time swerved as they turned, and Filon d'Or went on and won is he pleased. Two favorites were beaten, In the fifth race, Byron McClelland threw his rider at the lower turn, made the circuit of the track, and then ran into the fence and drove a rail through his body, killing himself almost instantly. First race-five and one-half furlongs-Isidor (2 to 1) won. Captain Sigsbee (7 to 1 and 5 to 2) second, Gaze (7 to 5) third. Time, 1:07.

TO-DAY'S BIG REGATTA.

The work on the river has been more than ordinarily delightful this year, on account of the cordial feeling which has, from the first, existed between the rival creey, the open and frank methods of practice, and the exchange of courtesies between the Yale and Harvard settlements have done much, according to the coachers and graduates of both universities, toward putting intercollegiate row ing on a new footing.

FIRST AMERICAN REGATTA.

The contests are awaited with much interest, in view of the fact that the nanagers have conceived, and this year, or the first time, are able to carry out, the scheme of a regatta. The events of the meet will be crowded into one day, in order to meet the convenience of visit-ing spectators. The contests will begin in the forenoon Thursday, and will find a climax in the early evening, with the "big" race between the eights of the two universities.
Wind, weather, and water permitting,

the University fours will row their race at 10:20 A. M., the start being just above the draw-bridge. The course will lie upstream for two miles, this race finishing at the two-mile flag, off the navy-yard. Immediately after this race the two freshman crews will go on for a two mile pull from the navy-yard, up th river to the Varkity eight starting point, opposite Gale's Ferry. Late in the afternoon the 'Varsity race will come. Harvard has the best in the betting for two out of the three contests. However, last-minute changes have been made in the shell of the Yale four, two heavy oarsmen have been succeeded by lighter men, and the boat moves more rapidly. As a result, a hot race is looked for. On form, the Harvard freshmen are the superiors of the Yale youngsters, and their shell has splendid speed.

steady, in spite of the activity of specu ation in the stock market. Statements of railroad earnings, which were received uring the day, continued the extraor-

The cash demand for wheat, and the buying for export, were sustaining factors in the Granger group, even though a decline in the heavy Northwest receipts was reported to have set in. In view of these continued strong features in the situation, an effort was made to shift the speculative activity into the lower grade railroad stocks, when it was seen at New York Central had become quiescent and profits were being taken eisewhere. Traders in colton futures were naturally inclined to so slow, in anticipation of the holidays so near at hand, and to-day's market was a narrow one, even the more active positions working within a range of 8 points. The market opened steady at a 182 points advance, early cables giving considerable confidence, especially as to the excellent showing in the way of spot business at Liverpool, with prices in dicating a good foreign demand for actual cotton, wanted for large orders extending well into the future for cloths and yarm. Soon after the call, however, the market weakened, under late cables, which indicated a disposition to liquidate long interest in the Liverpool market, under the bearish inducace of fine crop prospects in this country. Prices declined 438 points from the best figures obtained on the call, but the bear contingent was not aggressive, the short interest being already extensive, at low prices, while the possibility of a serious change in the crop outlook at this critical season was recognized. Beneficial rains were reported for Northern Texas and the central sections of the cotton belt with the temperature normal, and favorable to a rapid and substantial development of the crop. On this account sentiment on 'Change was cautiously bearish. The market closed barely steady and 3 to 6 points lower.

made to repeat the demonstration of strength in the stock market, which was given by the outburst of activity and strength which carried prices to the highest in the closing dealings yesterday, but with only partial success. Manhattan was rushed up to a final quotation of 119 1-2, which was 3 1-4 above last night's price, as New York Central was rushed up late yesterday. The sympathetic effect on the general list was far below that of the New York Central movement. Decidedly the most significant feature of the day's trading was the cessation of the upward movement in New York Central and affiliated stocks. There was an active opening in the stock, caused by the accumulation of commission-house orders, which were attracted by the recent strong upward
